

Carousel Diaper Cake - Template #1 (Use To Make Top Base Piece)

Carousel Diaper Cake - Template #2 (Center Piece)

Key Plan For Reference Only

Use Template #1 to draw base piece as shown. Just trace and rotate and retrace till you make a full circle. Cut around perimeter and center octagon. Cut only though one side on dashed lines to create folding hinges.

Template #2 just tape straight onto the foamboard and cut out. On dashed lines only cut through one side and use as the fold line.
